Company Overview

As of April 20, 2001, Cordant Technologies, Inc. was acquired by Alliant Techsystems Inc. Cordant Technologies, Inc. manufactured propulsion systems, fastening systems, and investment castings. It operated in three divisions: Huck International, Inc.; Howmet International, Inc.; and Thiokol Propulsion. Huck designed and manufactured fasteners and fastening systems for aerospace and industrial markets worldwide, as well as supplied custom injection molded plastic products. Howmet supplied investment cast super-alloy and titanium components used in jet aircraft and electrical power generation. Thiokol produced solid rocket propulsion motors for space, defense, and commercial launch application...

Aerospace

June 26, 1999

Cordant Technologies Inc., which makes booster rockets for the space shuttle, said its Huck International unit will cut 115 jobs and close its plant in Lakewood that makes aerospace fasteners. Salt Lake City-based Cordant, which has 17,000 employees worldwide, expects the moves to save about \$6 million a year.

Alcoa Says Earnings Better Than Expected

July 7, 2001 | Reuters

Alcoa Inc., the world's largest aluminum producer, said its second-quarter operating earnings rose 14% to \$429 million, or 49 cents a share, four cents better than analysts expected. Alcoa's latest results exclude hefty charges of \$144 million for idling plants in the Northwest, where power costs have soared. The Pittsburgh-based company said profit got a boost from cost-cutting and such acquisitions as Reynolds Metals Co. and aerospace maker Cordant Technologies Inc., which it bought last year.

Northrop's Shares Take Wing as the Firm Shifts Focus

April 19, 2000 | JAMES F. PELTZ, TIMES STAFF WRITER

Though still a mid-tier player in a league of aerospace giants, Northrop Grumman Corp. keeps tweaking its operations in search of faster growth--and Wall Street is finally taking notice.

Alcoa to Acquire Aerospace Supplier Cordant

March 15, 2000 | Reuters

Alcoa Inc. said that it will acquire Cordant Technologies Inc. for \$2.3 billion in a deal that would give the world's largest aluminum company a stronger presence in aerospace and automotives, plus new access to the burgeoning market for industrial gas turbines. The acquisition of the aerospace and industrial technology company would boost Alcoa revenue to \$23.5 billion from \$16.3 billion when added to Alcoa's pending merger with Reynolds Metals Co.
